

U.S. CHEMICAL INDUSTRY FACES THE 21ST CENTURY

TABLE OF CONTENTS

	PAGE
FOREWORD	5
ACKNOWLEDGMENTS	7
EXECUTIVE SUMMARY	9
I. INDUSTRY CONDITION	13
Structure and Characteristics of the Industry	13
A Keystone Industry	13
Huge, High-Tech, and Dynamic	19
Over 1 Million U.S. Jobs	22
A Global Industry	23
Capital Intensive	24
Environmentally Committed	25
Position in World Markets and Trade Performance	30
Trade Performance and Competition	30
Trade Composition by Product	34
Geographic Composition of Trade	36
Foreign Investment Performance	36
Economic Performance and Financial Position	40
Revenues and Assets	40
Investment Trends	41
Profits	43
Rates of Return	44
II. FORCES SHAPING THE INDUSTRY	47
Infrastructure and Sources of Current Strengths	47
Global Supply-Demand Relationships	50
U.S. Economic Performance	52
World Economic Performance	55
Access to Foreign Markets and Protection of Intellectual Property	56
Government Policies	57
III. COMPETING IN A DYNAMIC WORLD ECONOMY	59
The Advance of Technology	60
Environmental Costs and Product Restrictions	66
The Availability of Energy	71
Changing Geographic Composition of Production and Consumption	73
U.S. Chemical Industry Competitiveness and Foreign Investments	73
New Foreign Investment Strategies and Problems	75

OFFICE OF TECHNOLOGY POLICY

IV. MAJOR DETERMINANTS OF FUTURE COMPETITIVENESS	79
Defining “Success” in the Next Decade	79
Critical Industry Choices Affecting International Competitiveness	81
Growth Strategies	81
Costs of Production	82
Making the Right Investment Amount and Location Choices	83
Making the Right R&D Amount and Composition Choices	83
External Factors Determining Chemical Industry Competitiveness	84
The Domestic Economy and U.S. Policies	85
The World Economy	85
Export and Investment Access to Foreign Markets	86
Global Protection for Intellectual Property	86
U.S. Regulatory Policies	86
Peering into the Future	87
BIBLIOGRAPHY	89
